EXPERIENCE

Graphic Designer

Minuteman Press

📅 05/2021 – Present   📍 Kirkintilloch

- Designed a wide range of print materials including flyers, business cards, adverts, banners, and brochures for diverse clients.
- Worked directly with clients in person to understand their design needs, provide updates, and manage revisions.
- Prepared print-ready files with attention to paper stock, colour profiles, and print specifications.
- Operated front-of-shop services including customer transactions and project consultations.
- Managed multiple projects under tight deadlines, delivering high-quality designs efficiently throughout the day.
- Proficient in Adobe InDesign, Illustrator, and Photoshop, using them daily for layout, illustration, and image editing tasks.

HNC Web Development and UX Design

New College Lanarkshire

📅 08/2024 – 05/2025   📍 Motherwell

- Gained a strong foundation in front-end and back-end web development, including HTML, CSS, JavaScript, jQuery, and PHP.
- Applied UX/UI design principles to create responsive, user-focused websites and applications.
- Studied colour theory and design fundamentals to produce visually cohesive digital interfaces.
- Developed proficiency with Adobe Photoshop and Illustrator for creating web assets and interface elements.
- Managed multiple web projects from planning to deployment, applying effective project management and version control practices.

HND Web Development and UX Design

New College Lanarkshire

📅 08/2025 – Present   📍 Motherwell

- Expanding on advanced UX/UI techniques and full-stack web development.
- Undertaking client-style projects with a focus on responsive design and usability.

DipHE Mathematics

The University of Strathclyde

📅 09/2020 – 06/2022   📍 Glasgow

- Developed strong analytical and problem-solving skills through advanced studies in algebra, calculus, statistics, and mathematical modelling.
- Applied mathematical reasoning to real-world problems, enhancing logical thinking and data interpretation abilities.
